

# **NEW HOME MAINTENANCE MANUAL**

**Put your dream home in  
the hands of a builder  
you can trust.**

# **THIS IS WHERE YOUR HOUSE BECOMES A HOME**

Congratulations. You've got your own piece of the American Dream. A new home means a lot of things. It's a place to come home and relax. It's a roof over your family's head. It's an expression of the things that are most important to you. And it's freedom to live life on your own terms.

Of course, like any good freedom, it also comes with responsibility. And that's where this guide comes in. Here, you'll be able to easily find, record and stay on top of what you need to do to keep your new home in great condition. Whether it's plumbing, electrical, structural or anything else, your questions can be answered here.

It's a great feeling to take care of your house. That's how it truly becomes a home you can be proud of.

## **MOVING IN**

Moving in is both exciting and stressful. There's so much promise ahead, and so much unpacking to do.

## **BEFORE THE MOVE**

Walk through the home before closing and make sure you're satisfied with its condition. As it's a new home, there should be no outstanding repair issues. If there are, note them on the walkthrough list provided in the back of this manual and let your Builder know.

## **AFTER THE MOVE**

Make sure you have your 2-10 HBW Service Request forms handy. They're the paper trail you need when something needs repair.

## BEFORE THE MOVE

### GET READY

By the time you get to moving and unpacking, it's easy to feel overwhelmed and buried. That's why it's important to take care of what you can before the actual move.

### GET SET

Utilities and services should be cancelled and all companies you normally do business with should be notified that your address is changing. Collect all of your mail for a few months prior to the move so you can see who sends you mail regularly.

### GO

Make sure you have plenty of boxes, and start with the most complex rooms in the house (like the kitchen).

## TIPS FOR A SUCCESSFUL HOUSEWARMING

**Give a tour to your guests.** After all, the party is all about viewing your new home.

**Food.** It's best to serve non-messy finger foods as your guests will be wanting to tour your house and stand around and mingle.

**Don't worry about decorating.** Your new house is the main event and you don't want to distract from it.

## AFTER THE MOVE

### YOU'RE ON THE HOME STRETCH TO A HAPPY HOME.

But there's still work to be done. Here's a list:

#### PREP YOUR HOME

Now's the perfect time to do a few things:

- Store your instruction manuals, warranties, insurance documents and this guidebook in a safe, easy-to-find place.
- For important documents, such as birth certificates, social security papers, or car titles, consider a safe deposit box.
- Mail in all manufacturer warranties on new appliances.
- Get a fire extinguisher for each floor of the home, as well as the kitchen and garage.
- Locate the main water and gas shut-off valves.
- Locate the electrical service panel and shut-off switch.
- Get to know your appliances and how they work.
- Install contact paper in cabinets and drawers.
- Install protector pads on furniture legs.
- Apply grout sealer to ceramic tile.
- Get a first-aid kit and place in an easy to access location.

## CONNECT TO THE COMMUNITY

### MANY HAPPY HOMES TOGETHER MAKE A HAPPY COMMUNITY. GET TO KNOW YOURS.

- Change the address on your driver's license.
- Register to vote if you're in a new jurisdiction.
- Identify your HOA and their requirements.
- Register your kids for school. Apply for a homestead exemption with your local county tax office if applicable.
- Meet the new neighbors.
- Offer your old boxes to someone who's moving.
- Start thinking about a happy-home warming party.

## EASY, MESS-FREE CAPRESE SKEWERS

**INGREDIENTS:** 1 pint cherry tomatoes, red or yellow

1 bunch basil leaves (about 18-30 leaves, the big ones can be cut in half)

8 ounces fresh mozzarella cheese

Slice the cherry tomatoes in half so you end up with two half-basketball pieces. Slice the mozzarella into bite-sized chunks. Slide a piece of mozzarella onto the toothpick. Fold a basil leaf in half or thirds and nestle it up next to the mozzarella (large leaves can be cut into halves or even thirds). Slide a tomato onto the bottom of the skewer, cut side down. Move the mozzarella and basil down to meet the tomato if needed. You want the flat side of the tomato to be right at the end of the toothpick so it stands up straight. Place all the finished skewers on a paper plate or tray. Drizzle lightly with balsamic vinegar and transfer to a platter to serve.

Balsamic vinegar, for drizzling

2-3 dozen long toothpicks/skewers

# HOME MAINTENANCE CATALOG

## A HAPPY HOME HAS PROPER CHECK-UPS.

Keeping your home in tip-top condition can sometimes challenge your best organizational skills. With this worksheet, you can track maintenance when it's done and keep tabs on your home's health.

# MAINTENANCE TIPS

**IT FEELS GOOD TO TAKE CARE OF YOUR OWN.**

## **HEATING SYSTEM**

Check filters every month. Replace in accordance with manufacturer's recommendations, generally every month for lower priced filters and up to three months for higher performance filters. You may need to change filters more frequently if you have pets, smoking, or other activities that generate dust.

Have your mechanical system annually serviced. Consider having your ductwork professionally cleaned by a company meeting the standards set by the National Air Duct Cleaners Association or equivalent.

Blower units making excessive noise should be brought to the attention of a licensed technician.

Clean and dust the radiators and heating vents and inspect the radiators for any signs of leakage.

Bleed air from your radiators at the start of each heating system. While the system is running, and starting at the top floor, open each bleed value slightly. Close it when water starts to escape through the valve.

Check the exhaust pipe on your gas furnace for any loose connections. Call the gas company immediately if you detect a gas smell. Keep your outdoor condensing unit clean and free of debris.

## **AIR CONDITIONING SYSTEM**

Check filters every month and replace as necessary.

Keep your outdoor condensing unit debris free.

Have your system annually serviced before each air conditioning season.

## **ELECTRICAL SYSTEM**

To prevent loss of power, do not overload any one circuit in your home.

Don't use light bulbs of a higher wattage than a fixture allows. Consider energy saving bulbs that are ENERGY STAR qualified.

Periodically test ground fault interrupter outlets by pushing the test button to trip the circuit. If the reset button doesn't pop up consult a qualified electrician. Do not plug freezers or other appliances that require large amounts of power into GFI switches.

## **PLUMBING SYSTEM**

A simple plunger may solve many of your clogging problems; do not flush any paper products down a toilet other than toilet paper.

Check any of your exposed plumbing lines for corrosion or leaks.

In the event you are experiencing extremely cold weather, allowing a faucet to drip slowly will help avoid a freezing water line.

Check water heater for signs of leaking/corrosion.

Inspect the bottom of your water heater; drain pan or floor for signs of rust or water staining.

Drain and flush your water heater every year by attaching a common garden hose to the drain valve at the bottom of the heater.

You can add to the life of your electric water heater by removing the heating elements and soaking them in vinegar to remove any corrosion or sediment build up.

## **FAUCETS**

A dripping faucet may be repaired by simply replacing an o-ring or vinyl gasket.

Clean and remove any hard water or mineral deposits with vinegar to avoid a slow water flow.

Homebuyer's Name

*My Builder or Agent has conducted a pre-closing orientation walkthrough and has explained each of the items listed below. During the course of this review, I listed items as noted on the pre-closing checklist. With the exception of the items listed on the pre-closing checklist, I am satisfied with the materials and workmanship in my home, and I consider my home to be acceptably completed.*
